MELAMINE WOW PAD

DESCRIZIONE

THE WOW PAD in melamine far exceeds the cleaning capabilities of any washing pad.

Crucial for this exceptional result is the innovative combination of materials with differentiated structures which, in combination with the MICROIMPULSE, remove dirt from micropores surfaces.

THE WOW PAD in melamine is extremely resistant to tearing even on embossed surfaces.

The quick and effective maintenance cleaning of stoneware, klinker, marble, resin and hard stone floors makes you forget the useless and wasteful deep cleaning with traditional discs and chemicals.

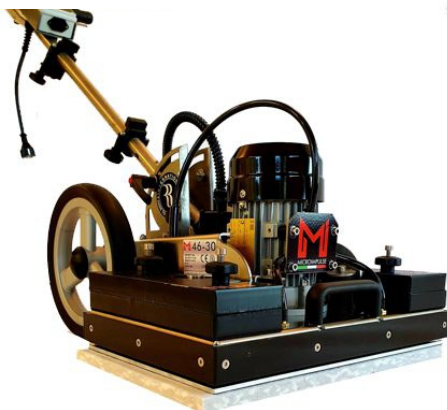

With the WOW PAD you can eliminate in one step: Dirty residues such as: oil, grease, shoes marks and trolleys marks from concrete and / or epoxy resin floors, classic halos from microporous flooring, porcelain stoneware, marble, granite and grit.

It is very important to wet the pad thoroughly before use and distribute a lot of water on the floor to prevent it from drying out.

TECHNICAL SPECIFICATIONS

Application :	microporous floors
Size :	Cm 46 x Cm 30 x H cm 2
Number of water holes :	2
Fiber Quality :	EXCELLENT
Abrasiveness:	high
Cleaning force :	high
Type of dirt :	intense dirt
Resistance to detergent :	Great
Resistance to acid :	Good
Resistance to alkaline :	Good
Resistance to Solvent :	NO
Dry use :	yes/stripping
Productivity theoretical :	From 150 To 250 Sqm
Quantity for single box :	Pcs. 5
Package size:	H:Cm14 x L: Cm 47x P Cm 31
