

Microimpulse Golden Pad

The best choice for the restoration and maintenance of floors.

Smooth and polished floors in just 3 steps.

The new GOLDEN PADS are ideal for mechanical polishing of surfaces without the need for experience, anyone can obtain incredible results without the risk of damaging them.

With the GOLDEN PADS you always get surprising results, fast and easy to use, anyone can get incredible results without any kind of training and without the risk of damaging the floors.

Why use the Golden Pads

Easy to use and exceptional results

A simple and effective method, in just three steps you can get incredible cleaning and polishing results on various types of floors.

Save time and money

Very low cost per square meter and immediate economic return thanks to savings on labor and the use of chemical products.

Clean, smooths and polishes without chemicals

They can be used both for washing and for deep cleaning treatment or polishing, in all cases no chemicals are used, guaranteeing extreme safety for operators.

Makes surfaces non-slip

Thanks to the micro-sanding, the floors will be easy to keep clean and non-slip

Ecological

The use of water alone allows a huge saving of chemical products, the pads made of natural materials, once consumed, can be simply disposed in the unsorted bin.

Description

The range of GOLDEN PADS differs from normal discs thanks to the new natural fiber support, the high concentration of diamond and the great resistance and durability of the pad in the most extreme conditions

The standard system is composed of 3 colors, Red PAD 1, Green PAD 2 and Blue PAD 3

To complete the system, there are 2 other Pads Number 0 and 00 useful for restoring scratched floors.

PAD STEP 1 RED the most aggressive, quickly removes scratches, acid stains, and stubborn dirt.

PAD STEP 2 GREEN gives tone and color to the surface leaving a satin gloss

PAD STEP 3 BLUE gives a very high degree of gloss and can be used for routine maintenance of the floor

Caratteristiche e vantaggi

- Simple method, fewer steps and better results for cleaning and polishing
- Maximum brilliance and durability.
- Non-slip gloss.
- Removes acid stains
- Makes surfaces non-slip
- Does not damage the surface.
- Use of water only.
- Easy to use even for the less experienced.
- Eco Friendly, no chemicals.

EXAMPLES OF PERFORMANCE THE GOLDEN PADS ON SOME FLOORS:

PERFORMANCE ON MARBLE AND TERRAZZO MARBLE FLOORS

High speed polishing with MICRO IMPULSES: from 400 to 600 m2 in normal use conditions.

PERFORMANCE ON CONCRETE FLOORS

Depending on the condition of the floor, the duration could be half that of marble and terrazzo floors from 200 to 400 square meters.

PERFORMANCE ON PVC, RUBBER AND LINOLEUM

On average very similar to that of marble from 400 to 600 m2 under normal conditions of use

Microimpulse Golden Pad

How to use Golden Pad

The GOLDEN PAD system is very effective for cleaning concrete floors, for de-waxing floors, restoring polishes on old marble, vigorously cleaning ceramic tiles, restoring pvc, linoleum and very high floors.

The GOLDEN PADS thanks to their characteristics are faster and more resistant than other discs on the market, making the purchase the most profitable and lasting.

With the GOLDEN PADS, extraordinary results are easily obtained by wasting less in chemical products, becoming more competitive and professional in the cleaning sector.
